

Indian Nations Council Camporee Adventure Guide

The Council Camporee is an event that will showcase the best of Scouting in the Indian Nations Council. Hundreds of Scouts BSA, Webelos, Venturers and Explorers camping in Babbitt Cub World, will come together and participate in a variety of activities, including canoeing on Skiatook Lake, shooting sports at the Jack Graves Sporting Clays Complex, high and low climbing activities at the Mabee Aerial Adventure Tower, backpacking and outdoor skills sessions, STEM adventures, and Native American culture and activities by the Cherokee Nation. Your co-host will be our own Order of the Arrow service members from the Ta Tsu Hwa Lodge, who have worked diligently to help make this a premier event. You will know the Lodge members because they are going to be wearing their OA sashes throughout the weekend!

This Camporee Adventure Guide is designed to assist you in planning for a successful weekend. The volunteer committee and staff, together with the Lodge, look forward seeing you soon at the Zink Scout Ranch on October 1-3!

COVID-19 PROTOCOLS

Unfortunately, COVID-19, especially the Delta variant, remains an ongoing concern, particularly to un-vaccinated youth. As with other Council events and activities, reducing the risk of COVID-19 exposure is a cooperative, team effort of attendees, staff, parents and third parties helping conduct the Camporee. This effort starts at your unit's home, pre-Camporee arrival, and continues upon arrival and stay at the Camporee until your return home. Working together, we hope to minimize the risk of exposure while at the Camporee, and minimize the risk of bringing COVID-19 home to the families of anyone attending the Camporee. The following protocols shall be in place:

1. Unit Pre-Arrival. Units should screen all Camporee attendees 1 to 2 days before arrival. Please use the Model COVID-19 Pre-Event Medical Screening Checklist attached as Exhibit A in the Appendix (the "COVID-19 Checklist"). Also, a temperature check should be conducted. Any temperature over 100.4F degrees shall be considered to be a COVID-19 symptom. All attendees should bring one mask and a small bottle of hand sanitizer.

2. "Yes" Answers. If an attendee answers "yes" to any of the five questions on the COVID-19 Checklist, the person should stay home.

3. Symptoms. If an attendee has any symptom listed on the COVID-19 Checklist, then he or she must stay home. Please note that ragweed pollen and other allergens are on the rise, and allergy symptoms can be confused as COVID-19 symptoms. Please disclose these on the Annual Health and Medical Record. If an attendee is observed to be suffering from allergies, Camporee staff may consider this to be one or more COVID-19 symptoms. Please do not travel to or attend the Camporee if sick. If any person evidences signs of COVID-19 symptoms at check-in or any other time during the Camporee, the entire unit may be sent home following an assessment by the Camporee health officer.

4. Arrival. The Camporee staff will not be performing health assessments upon arrival. However, the Camporee staff shall be observing arriving attendees for symptoms of COVID-19 at arrival and throughout the Camporee. Camporee leadership reserves the right to make further assessment as to any individual's health condition upon a reasonable belief, based upon observable symptoms, and in consultation with a Camporee health officer.

5. Masks/Face Coverings. All persons attending the Camporee will be required to wear face masks while: (1) indoors, (2) while on shuttle buses, (3) while standing in lines for shuttle buses or program activities, and (4) at any program area where mask use is required or posted. Every person attending the Camporee should bring a mask or face covering regardless of your vaccination status.

6. Social Distancing. Social distancing is recommended at all Camporee locations. However, the Camporee staff realizes this is not possible in all settings or activities of the Camporee. Therefore, the mask/face covering requirement has been implemented where social distancing is not possible.

7. Handwashing and Sanitation. Please practice good handwashing and sanitation practices throughout the Camporee, using hand sanitizer at program areas.

A Scout is helpful. Please help keep those persons more vulnerable to COVID-19 safe by following the protocols above.

CAMPOREE LOCATION

Babbitt Cub World at Zink Ranch

8607 Zink Ranch Road, Skiatook OK 74070 (Note: This address works in Google maps)

The Camporee will be held at Babbitt Cub World at Zink Scout Ranch. The Zink Ranch is located northwest of Tulsa in Osage County on Skiatook Lake. The Zink Ranch is a 35,000-acre property that is home to multiple outdoor groups including gun clubs, motocross events, Girl Scouts, Boy Scouts, fly fishing clubs, and more. It is also a working ranch. Please observe the posted speed limit of **25 mph** and be aware of traffic flow and pedestrians.

SPECIAL NOTE: Please read the Section regarding the Osage Passage bicycle races to held on the same weekend as the Camporee and which may temporarily impact the Zink Ranch entrance road.

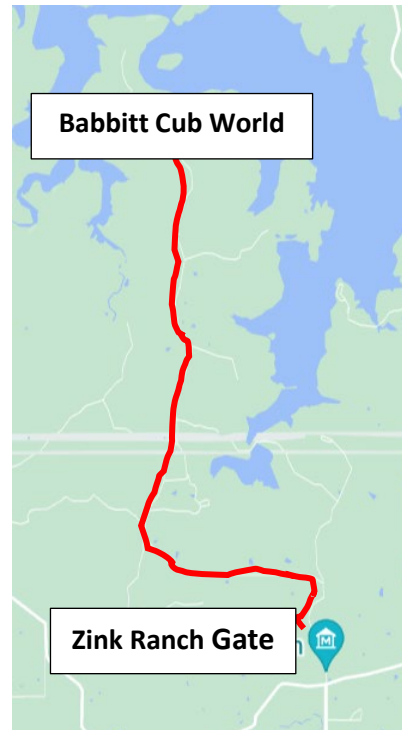

Zink Ranch Access Gate

The Zink Ranch has an entry gate that requires a four-digit access code that is changed monthly. Units will be advised of the code prior to the Camporee to share with your unit. **Due to Osage Passage, we intend to post a Camporee staff person at the Zink Ranch entrance to assist arrivals on Friday and Saturday.** After entering the gate, proceed to the left up the hill on the asphalt road. Continue until you come to a main sign which will show Babbitt Cub World. Bear to left and proceed on the asphalt road to the Jack Graves Sporting Clays Complex for check-in. It is approximately 12 miles from the Zink Ranch Gate to the Jack Graves Sporting Clays Complex.

FEES

Youth Camporee Fee – \$25 Regular Fee (Early Bird \$20 if registered by Sep-10)

- Who: All BSA registered Scouts BSA, Venturers, Explorers and Webelos (embedded/camping with a Troop)
- Includes: Access to all age-appropriate activities at the Camporee
Access to exhibits, displays and vendors
Access to the Saturday evening carnival, camp fire, fireworks and Sunday interfaith service
Camporee Souvenir Patch
Camporee T-Shirt
Entry to Coyote Howl 2-Mile Fun Run and Walk
Overnight camping all weekend
- How: Register online

Adult Camporee Fee – \$20 Regular Fee (Early Bird \$15 if registered by Sep-10)

- Who: All BSA registered adults (any leadership position or parents attending with a unit)
- Includes: Access to exhibits, displays and vendors
Access to the Saturday evening carnival, camp fire, fireworks and Sunday interfaith service
Camporee Souvenir Patch
Camporee T-Shirt
Entry to Coyote Howl 2-Mile Fun Run and Walk
Overnight camping all weekend
- How: Register online

Staff Fee – Same as Adult Camporee Fee. If you are embedded with a Unit, please email Camporee@okscouts.org or call so your staff T-shirt will be the staff T-shirt version.

REGISTRATION

Unit Registration

Webelos, Scouts BSA, Venturers and Explorers should register as a group. Registration is online at www.okscouts.org. Please access the Camporee webpage (under Events & Activities). Updates, substitutions and deletions can be made through Saturday, Sep-25. Thereafter, registrations, updates, substitutions and deletions will need to be made through Paige Draffin at the Scout Service Center, at the time a unit picks up its EZ Check-In packet, or upon arrival at the Camporee. Any late additions to registrations likely means a T-Shirt will not be available and the registration fee will be reduced accordingly. Any substitutions may mean the T-Shirt size may differ and not fit. We do not anticipate a volume issue with patches.

Units are responsible for providing their own camping gear, including tents, and meals.

WEBELOS

Webelos can and should attend the Camporee. It is a great opportunity to have fun doing age-appropriate activities while at the same time, getting a flavor of the Scouting program and what it has to offer. Please note

Webelos can only attend if they are embedded in a Troop that is camping for the weekend, just like a Webelos Woods. This is not a day-event.

Let's explain how this works. Traditionally, some Packs are associated with a Troop; Webelos transition to the Troop with an Arrow of Light ceremony. But, some Packs are not associated with a Troop. Webelos and parents should ask your Cubmaster whether your Pack is associated with a Troop in order to contact the Scoutmaster and camp with the Troop. If your Pack is not associated with a Troop, ask your Cubmaster or other parents about Troops and then contact a Troop they recommend. You can always call the Scout Service Center or contact you District Executive for recommendations.

STAFF

If you are on the staff and associated with a unit, we prefer you register with your unit, camp with your unit and eat meals with your unit. There are two exceptions to this. First, on Saturday all staff will be fed a brown bag lunch, with lunch bags delivered to staff in program areas. Second, your T-shirt color will be different than participant T-shirts. But, you must let us know you're registered with a unit to get the right color T-shirt. Simply send an email to Camporee@okscouts.org or by calling 918.392.1227.

If you are on the staff and WILL NOT be associated with a unit AND camping, you need to register as staff so we can get a count for camping areas and meals. Your T-shirt is addressed in the registration.

If you are coming out for Saturday only, then there is no fee but you are responsible for your own lunch and hydration. You can separately buy a Camporee patch. If you want a T-shirt and the order has not been placed, we will try to accommodate you. Please call 918-392.1227.

SCHEDULE

Monday, Sep-27 through Noon, Thursday, Sep-30

EZ Check-In Pick-up Packets @ Scout Service Center

Friday, Oct-1

8:00 AM	Campsites open for trailer drop-off/Program and Vendor setup
4:00 PM – 10:00 PM	Unit check-in begins @ Graves Sporting Clays Complex
8:30 PM	Coyote Howl 2-Mile Fun Run & Walk registration opens @ Far Pavilion
9:00 PM	Unit Leaders' Information Meeting - TBD
10:00 PM	Runners' 2-Mile Fun Run begins
10:10 PM	Walkers' 2-Mile Walk begins
11:30 PM	Youth in Campsites/Taps

Saturday, Oct-2

6:30 AM	Reveille/Breakfast
7:00 AM	Check-in Opens/Vendor Arrival @ Graves Sporting Clays Complex
8:00 AM	Flag Raising – All Units @ Longhorn Dining Hall field
8:30 AM	Program Areas Open
Noon	Participants Switch Program Areas

4:30 PM	Program Areas Closed
4:45 PM	Flag Retreat – All Units @ Longhorn Dining Hall field
5:00 PM	Meal preparation and Dinner
7:00 PM	Longhorn Carnival @ Arena/Castle/Dining Hall Area
8:15 PM	Campfire @ Arena followed by Fireworks (weather & conditions permitting)
9:30 PM	OA Ice Cream Social (Ta Tsu Hwa Lodge members only) @ Dining Hall
11:00 PM	Youth in Campsites/Taps

Sunday, Oct-3

6:30 AM	Reveille/Breakfast/Break Camp
8:30 AM	Scout’s Own Religious Service – Arena
9:00 AM	Vehicles may enter campsites/Campsite Clean-up/Check-Out/ Depart for Home

GENERAL

Wristbands

Everyone will be issued one or more color-coded wristbands to wear throughout the Camporee. The colors are important as they denote your District subcamp; what program areas you can attend in the morning and then, in the afternoon (we can’t have everyone go to the same program areas at the same time); and whether you are a Webelos (purple). The following are the District color assignments:

Scissortail – Red Redbud – Green Will Rogers – Blue and Gold

Buddy System and Safety

Safety and fun go hand-in-hand. The Buddy System will be in effect at all times. No youth participant should ever be un-accompanied without another youth participant. All BSA rules shall apply at all times, including Youth Protection Policies. Entrance to the Camporee will be secured. Guests will not be allowed. Any person behaving in an unusual manner should be reported immediately to the Camporee staff or the nearest adult.

Not pets, except service animals, will be permitted. No bikes or personal watercraft will be allowed.

Individuals With Disabilities

The Camporee staff will accommodate any individual with a disability to transport them to and from Camporee locations in accordance with the Council’s policy on motor vehicle use (including the use of private vehicles to transport individuals with disabilities which is governed by such policy). We request you help us by notifying us, in advance of the Camporee, by contacting Paige Draffin at the Scout Service Center so we can address any request for accommodation. There will be designated parking areas for vehicles with Oklahoma DPS designated disability parking placards.

CAMPING

District Subcamps and Unit Campsites

Cub World will be divided into three subcamps, by Districts. **District subcamps shall be established based upon projected attendance the weekend before the Camporee.** Units will be assigned a campsite within their District subcamp. **Campsite assignments will be made the weekend before the Camporee.** Each unit’s campsite

assignment will be coded with two letters for the District subcamp followed by the unit's number (for example, ST for Scissortail, WR for Will Rogers, and RB for Redbud, followed by the unit number). Camporee Commissioners will be available in the subcamps to help units find their assigned campsite. Please ensure everyone, especially single or late arrivals, are provided this identifying code. It will also be on any car tags provided to your unit.

Equipment Trailers

Unit trailers will be permitted in the unit's campsite. On Friday, Oct-1, unit trailers may be towed in, un-hitched and parked in a unit's designated campsite starting at 10:00 AM. Earlier arrangements can be made by advance appointment made by noon on Thursday, Sep-30. Vehicles, whether used tow the trailer or not, cannot stay parked with unit trailers and must park in the parking lot designated for units. Please note that unit check-in will not begin until 4:00 PM on Friday, so Camporee staff will not be able to register any individual(s) arriving early to park trailers. Unit trailers should have a car tag taped on the outside.

Water

Water is available in most campsite or restroom facilities. Units should plan on bringing water coolers to help store enough water in their campsite as needed. Those not camping near a water location/spigot may request help at Camporee Headquarters to transport water to their campsite. Adults should remind youth, as well as other adults, to stay hydrated. Youth should leave their campsite with a filled, personal water bottle. It's likely some youth will not only exert themselves in program areas but also exert themselves by hiking to distant program areas. You may get exerted also. Sometimes, we don't notice we're getting dehydrated especially if it's cool. Please hydrate!

Restroom Facilities

There are a limited number of flush toilets located in the Babbitt Cub World. Please help us keep these clean, maintained and stocked with toilet paper. Notify the Camporee Headquarters of any issues. Porta Johns will be situated at select program areas. It is always good to **Be Prepared** and bring your own roll also!

Trash and Leave No Trace

Units are requested to bring their own trash bags in order to pack out all trash on Sunday. Trash barrels will be situated around the Camporee for individual trash and litter. These will be periodically emptied. Units and participants are encouraged to practice Leave No Trace and Tread Lightly principles. Please help leave the Camporee grounds in better condition than when we arrived.

Fire Safety

As fall advances, vegetation dries out and dies at the Zink Ranch, increasing the risk of fire. The use of fire will be evaluated up to the start of the Camporee. Your cooperation, along with the cooperation of everyone under your direction, in complying with the following policies and rules of fire prevention is the first line of defense against fire.

- A. Camp Fires. If no restrictions are imposed, fire can be used in designated fire rings or fire pits in the campsites. Do not create new fire rings. Above ground fires are also permitted. Dead, dry and downed fire wood is in limited supply in and around Babbitt Cub World. It is recommended units desiring to have a camp fire or cook over fire, bring their own fire wood to ensure an adequate supply. Fire safety should be practiced with any fire to prevent un-intended ignition of surrounding ground cover and vegetation. Water buckets must be in place around any camp fire and filled at all times. **Camp fires shall never be left un-attended.**

- B. Flammable Fuels. Adult supervision is mandated and required at all times when flammable fuels are used for lighting (lantern) and cooking equipment. Stoves and lanterns using flammable liquids must be operated in strict and full compliance with the manufacturer's instructions. All flammable fuels must be stored in approved containers and maintained under adult supervision and control. Stoves and lanterns using flammable liquids should be allowed to cool down before re-filling and only re-filled a safe distance from any other flames. **Never leave a lighted stove or lantern un-attended.**
- C. Flammability Warning. Only flash lights and battery-operated lanterns may be used in tents. **No flames are allowed inside tents. There is no exception to this rule.** Do not use stoves, lanterns or heaters which use flammable liquids, or candles, matches or other flame sources in or near tents.

Electricity

Electricity is only provided in designated areas. There is no guarantee units will be near areas where electricity is available when campsites are assigned. All CPAP machines, cell phones, computers, and other electrical equipment should be powered by batteries to avoid conflicts. In consideration to others, units may not operate generators in the camping areas.

EZ CHECK-IN, ARRIVALS & DEPARTURES, AND OSAGE PASSAGE

EZ Check-In

Commencing on Monday, Sep-27 and running through noon on Thursday, Sep-30, units may pick-up an EZ Check-In packet from the Scout Service Center. The EZ Check-In packet will contain Camporee patches, wrist bands, swim tags, car tags, the unit's campsite assignment and t-shirts, all based upon the unit's prior registration. Any additions or deletions to unit rosters, and additional payments, can be made at the Scout Service Center at that time. Please note; however, that the Council cannot change or substitute t-shirt sizes or guarantee sufficient Camporee patches will be in stock. Additional changes to a unit's EZ Check-In packet can be made Friday night as discussed below.

EZ Check-In – Friday Night Arrival

If your unit completes the EZ Check-In as discussed, please follow the following to ensure a prompt EZ Check-In Friday night:

- Arrive as a unit as much as possible.
- Post the car tag in the windshield of each vehicle arriving at the Camporee, whether such vehicle is staying and will be parked in the unit parking lot, or just dropping-off participants. This will assist everyone in identifying the district subcamp and campsite for your unit. Please note that many times, parents or others dropping off late arrivals need additional assistance as they are not familiar with Scouting. Help the Camporee staff to help them.
- The Camporee staff will ask unit leaders to park at the check-in center (the Jack Graves Sporting Clays Complex) separately from the unit vehicles which will be kept in a line. The unit's cars will be waved through while the unit leader, accompanied by the SPL and/or another leader, proceed to the EZ Check-In table to confirm the unit's check-in and any further changes and/or payments.
- In addition, the unit leader will provide the unit's Annual Health and Medical Records for visual inspection by the Camporee Staff and to address any medical issues with the onsite Health Officer (medication storage, medical issues that should be made known to the Health Officer, etc.). **Units will be responsible for their Annual Health and Medical Records. During the EZ Check-In, the unit leader**

must provide two contacts for each unit who will be contacted first in the case of an emergency. Annual Health and Medical Records should be readily available for access in an emergency.

- The unit leader should also advise the Camporee staff at check-in as to any:
 - Late arrivals; “late” meaning any vehicles arriving after the unit leader and the bulk of the unit; and
 - Any individuals with mobility challenges so accommodations to transport such individual may be made.
- While the unit leader, SPL and other adult(s) are checking-in, the unit may proceed to its campsite and commence set-up.

Regular Friday Night Arrival

If your unit does not complete the EZ Check-In during the week, please proceed as follows:

- All vehicles, including the unit leader’s vehicle(s), will be kept in a single-file lane in the parking lot at the check-in center (the Jack Graves Sporting Clays Complex). No one should exit the vehicles except for the unit leader, SPL, and other unit leader(s) to assist with check-in.
- The procedures above under the EZ Check-In – Friday Night Arrival will apply except that the unit vehicles cannot depart for the campsites until check-in is completed. In essence, your unit will verify all aspects of the roster, payments, Camporee patches, wrist bands, t-shirts, car tags, Annual Health and Medical Records, mobility challenges, late arrivals, etc.
- After check-in, follow the bullet point above regarding car tags.
- As a unit, please proceed to your unit campsite after check-in.

Late and Saturday Arrivals

We understand late or Saturday arrivals may occur. After all, we live in Oklahoma and with Friday nights, some of youth are in athletics, band or have academic activities to attend. Please be aware at some point Friday night and on Saturday, the road will be blocked at the check-in center and no passenger vehicle traffic will be allowed. The exceptions to vehicle use are the shuttle buses, vendors and outside third parties providing program and other support on Saturday, Council vehicles, emergency and first responder vehicles. Late or Saturday participant arrivals will have to await transportation to Babbitt Cub World and/or backpack into the camp. It’s not that far if you have to walk.

Osage Passage

Many groups use the Zink Ranch and the weekend of the Camporee is no exception. Tulsa Tough, Inc., which organizes the Saint Francis Tulsa Tough bicycle races (criteriums) each June in downtown Tulsa (including Cry Baby Hill), has organized gravel bike races the same weekend as the Camporee. The headquarters, camping and race events are situated near the entrance to Zink Ranch. Units and individuals arriving for the Camporee should identify themselves with the Camporee and proceed to the gate arm. Please display your car tag if you have one. Our intention is to have a Camporee staff member present at the Zink Ranch entrance to help avoid confusion. Our understanding is that no bike races will take place on the asphalt paved road and we’re seeking confirmation. The most confusing time may be around 9:00 AM on Saturday, when the races will commence and a small portion of the paved road going up the hill may be used. **Please avoid this time.** Otherwise, arrival on Friday, early Saturday, and after 10:00 AM on Saturday should not be an issue, although it may be a little crowded. **Please watch for pedestrians and bikers** in this area. None are supposed to be on the road going to Cub World, but you never know.

Sunday Departure

Units may begin to break camp early Sunday; however, until the Scout's Own worship service is concluded, no vehicles will be allowed in the camping areas. Units are discouraged from getting up early and trying to get into the campsites with vehicles early. You can begin to pack-out gear early if you desire. Please police your area and Leave No Trace before checking out at the Camporee Headquarters.

VEHICLES

Unit Vehicles

After the gate is closed or the road barricaded on Friday night, no unit vehicles can remain anywhere in Babbitt Cub World except the parking lot(s) designated for unit vehicles. This is a Council policy, as well as a BSA policy, and is just common sense. Throughout the Camporee weekend, youth and adult pedestrians will be using the roads. To reduce the risk of a vehicle hitting a pedestrian, vehicles are restricted in the Camporee to those that are necessary. The necessary vehicles include Council vehicles, which may be transporting gear, supplies and even people; the shuttle buses; emergency and first responder vehicles, and vehicles of vendors and third parties who are coming out Saturday to provide program or other support. Please help us and also only park in parking lots designated for unit vehicles.

One-Way Traffic

Please observe any one-way traffic signs or directions. Traffic will be one-way, flowing in a clock-wise pattern, on all dirt roads behind the campsites. Please watch for pedestrians. The posted speed limit is 25 mph on Zink Ranch paved roads. **Please observe a speed limit of 10 mph or less within the camping areas.** Please see the map in the Appendix.

Friday Night

On Friday night, please consolidate gear to reduce the number of unit vehicles in the camping area. Unload as quickly as possible, caching gear along the road to allow vehicles to exit the camping area. Don't wait to set-up camp completely before moving vehicles out.

Unit Parking

There will be designated areas for unit parking at the Camporee. Please ensure these are used to avoid accidentally parking in a helicopter landing zone. There will also be designated parking areas for vehicles bearing an Oklahoma DPS disability parking placard.

EMERGENCY PROCEDURES & WEATHER

General

Paul Dahnke is the Emergency Procedures Director – 918.608.7265. Emergency Procedures will be headquartered at the Cub World Welcome Center. Throughout the Camporee weekend, there will always be a Health Officer on duty, together with Paul or someone he designates in his absence. Paul will have a radio as well as his cell phone to coordinate any emergency. Please remember, we're there to help. During the Camporee, a number of medical professionals will serve shifts as the Health Officer on-duty, to evaluate medical emergencies, provide counsel and perform minor first-aid.

Reporting Emergencies

During daylight hours, any emergency should be immediately reported to the nearest Camporee staff member. Every Camporee staff member shall be instructed to locate a handheld radio. Camporee staff with handheld radios will be located in each program area, on each bus, at each bus stop, the Camporee Headquarters and among select staff (including Paul Dahnke).

The Rock Fire Department is the primary emergency responder for medical and fire emergencies. Rock Fire Department has its own ambulance and first responder vehicles and equipment. Life Flight has also been notified in advance of the Camporee together with landing coordinates should air evacuation be required.

Please remember, in the event of a medical emergency, someone must attend to and render aid to the victim at all times! Please send another person to get help from the Camporee staff. That person should be specific as to the location and emergency.

Weather

Throughout the Camporee, we will monitor the potential for severe weather. Should the forecast include the risk of severe weather including lightning, this will be addressed when units check-in and at the Friday night unit leader/SPL meeting.

Outside Emergencies

In the event of an outside emergency which requires a participant be contacted by his/her family, we ask that the family member contact the unit directly by mobile phone. We will not provide an emergency contact number for outsiders to call. Please come to the Camporee Headquarters so Camporee staff can assist a unit to locate a participant.

PROGRAM

See the Appendix for a general list of programs. Specifically, two ZBASE program areas, available for high adventure treks, will be available during the Camporee. These include the Mabee Aerial Tower and the Jack Graves Sporting Clays Complex.

Competitions or Timed Events

Some activities shall have competitions or time events, in which one or more participants will be timed against other participants. Awards will be presented at the campfire on Saturday night. More details will be announced.

Program Areas – Allocating the Participants

Because of the volume and popularity of different program areas, overcrowding of program areas can occur if the participants are not allocated to different program areas. Even with allocation, long lines may occur. To try and allocate the participants, color-coded wristbands will be used.

There will be two major Program Areas; the Red/Yellow Program Area and the Blue/Green Program Area. The objective is to try and divide the youth participants in half, with one-half wearing red and gold wristbands and the second half wearing blue and green wristbands. This is why we divided the Will Rogers District into blue and gold wristbands (we used rock, scissors and paper to decide).

The program day (Saturday) is divided into two 4-hour sessions. From 8:30 AM until 12:30, participants with red/gold wristbands can participate in all program areas in the Red/Gold Program Area, and use the red/gold shuttle bus loop. At 12:30 until 4:30 PM, participants with red/gold wristbands will go to the Blue/Green program areas, and use the blue/green shuttle bus loop. Please see the map in the Appendix for the color-coded shuttle loops and program areas.

From 8:30 AM until 12:30, participants with blue/green wristbands can participate in all program areas in the Blue/Green Program Area, and use the blue/green shuttle bus loop. At 12:30 until 4:30 PM, participants with blue/green wristbands will go to the Red/Gold Program Areas, and use the red/gold shuttle bus loop. Please see the map in the Appendix for the color-coded shuttle loops and program areas.

Webelos, we have not forgotten you. Each Webelos will have a purple wristband, so they can use Webelos age appropriate activities plus each Webelos will have a red, green, blue or gold wristband (depending upon the Troop with which they are embedded) so they can do age-appropriate activities in those color-coded program areas per the schedule.

If we can think of better names than Red/Gold Program Area or Blue/Green Program Area, we will update you. Someone suggested Aquaman (for blue/green) and Ironman (for red/gold), but we haven't decided.

Saturday Lunch and Hydration

Participants may either eat in their campsites or pack a trail meal at the unit's option. This will also be the time when participants will proceed to the next program areas. It is strongly recommended that every unit encourage its members to carry water bottles or hydration packs during the day to ensure proper hydration. In most program areas there is limited potable water to drink.

Shuttle Buses

During the program day (Saturday), there will be two shuttle bus loops; one serving the Red/Gold Program Area and one serving the Blue/Green Program Area. Please see the map in the Appendix. There will only be one stop between the destination points. Masks must be worn in bus stop lines and on the buses.

Aquatics – Canoeing & Swimming Ability

Canoeing will be offered. Units will be responsible to verify whether each participant on a Swim Test form is a Swimmer, Beginner or Non-Swimmer. To verify swimming ability, units may use the most recent swim test classification PROVIDED it must be for 2021. In other words, swim check classifications from 2021 summer camp are valid. Units may, on their own, conduct a new swim test prior to the Camporee. No swim checks will be done at Camporee. Buddy Tags will be issued for Swimmers. This will be coordinated with units prior to the Camporee for EZ Check-In or can be done at the time of regular check-in.

If a participant is NOT certified as a Swimmer, the participant can only canoe with an adult swimmer.

There will be a canoe course and participants can be timed for entry for fastest canoe. Otherwise, all canoeing is recreational.

Fishing

Fishing will also be offered although it is not a structured program area and will be shore fishing only (no canoes). Participants must adhere to the Buddy System. Worms will be provided. Participants must bring their own

fishing tackle. There will be a largest fish contest. This program activity is not subject to any time limits, so if two or more participants are going fishing and their wristband is the wrong color, show the Camporee staff member at the bus stop your fishing pole and/or tell them you are going fishing down at the Aquatics area.

Coyote Howl 2-Mile Fun Run & Walk

On Friday night at 10:00 PM, any adult or youth can participate in the Coyote Howl 2-Mile Fun Run & Walk. The course will start near the last pavilion, follow the road to Skiatook Lake, then return to the starting point. Anyone wishing to participate must meet at the last pavilion at 8:30 PM to register with a mandatory buddy or two, and receive an assigned number. Participants without a buddy will be assigned a buddy, but we prefer you attend with a buddy. Headlamps or flashlights are required. Bring hydrating fluids. Non-participants are strongly encouraged to send off their participants, cheer them on, and to help with timing the timed runners.

Runners. 10:00 PM start time. Timed. First, second, third and fourth place youth recognized at Saturday camp fire. First, second, third and fourth place adult recognized also.

Walkers. 10:10 PM start time. Not timed.

All youth participants (including helpers) receive a Coyote Howl 2-Mile Fun Run & Walk patch. The unit with the highest percentage of youth and adult Coyote Howl participants (including helpers) to youth and adult registered attendees (including embedded Webelos) will be recognized Saturday night also, right after the District Howl-Off! More details to follow.

CARNIVAL, CAMPFIRE & FIREWORKS*

Carnival

Come join the carnival and have fun Saturday night. It will be a midway atmosphere, except there won't be any rides. But, there will be corn hole boards, music (not picked by adults), frisbees, popcorn, sno-cones, spike ball and...a dunk tank, to name a few things! The details are still being worked out on how the dunk tank work, but there will be an opportunity to throw softballs to dunk both professional and volunteer leaders. Stay tuned as to how this will work. If someone has a portable Ga-Ga pit let us know.

Campfire & Fireworks (Weather and other conditions permitting!)

The best way to get dry has always been to stand near a fire and maybe that's what the dunked leaders will have to do. After the carnival midway winds down, there will be a short campfire. Camaraderie will be the order of the evening as awards are announced, some "Thank You" are in order, and who knows what else is being planned. But after all of this, there will be a fireworks display. The same company which puts on Drillers fireworks intends to put on a slightly longer show, using a few bigger shells. At some point, we will all need to say "Thank You" to the yet un-announced donors, who covered 100% of this expense. *Please note the fireworks are subject to weather and other conditions permitting, so cross your fingers.

Scout Shop & Trading Post

The Indian Nations Council, National Scout Shop will be on site Saturday with numerous BSA items for sale. There will also be a Camporee trading post with small snacks as well as official Camporee memorabilia.

Feedback

We welcome your constructive feedback and comments, which will be used to plan the next Camporee.

More Information and Updates

Information updates will be provided at www.okscouts.org and by e-mail to the contact from each unit that registered for the Camporee. Also updates on facebook www.facebook.com/okscouts). Questions about the Camporee can be directed to Mike Holdgrafer, meholdgrafer@cox.net or contacting the Council as Camporee@okscouts.org or by calling 918.392.1227.
